

Fish

Moist

You can barely harm yourself
You very rarely temporarily climb
You overwhelm me If you see the consequence you're blind
You humble dog, you're mine
You overwhelm me in time In the sea completely real
You can always swim
From the fish and hide yourself You try every night to arm yourself
Get high every night
Prepare yourself to fly Take a stroll on astro turf
It's rolling foaling temporarily brown
You overwhelm me You can put me on a shelf for hours
A dreadful thirst and flowers
You overwhelm me in time In the sea completely real
You can always swim
From the fish and hide yourself You try every night to arm yourself
Get high every night
Prepare yourself to fly In the sea completely real
You can always swim
From the fish and hide yourself
You try every night
