Santa Lucia By Night

George Baker

Catch a falling star and tell me you love meSay you love me
tell me you love me.
Hold it in your hand and say that you need methe words I wanna hear.
Lonelyness a road I left far behind mefar behind me
so far behind me
Happiness comes in my life if you want meso give it all to me.Do you wanna stay
my love
do you wanna stay
my loveUnderneath the stars above?
Santa Lucia by night -
romantic feelings under the starry light.
No more worries
no more troubles to careIt's love that we share
it's love that we share.
Santa Lucia by night -
sail on the wings of love when you hold me tight
There's a place for you and I in this timeIf you will be mine
if you will be mine.Come and sing this happy melodySing it with your soul
it makes you free.
Listen to the music of your heartIn the Italian night we can be alright.Santa Lucia by night -
romantic feelings under the starry light.
No more worries
no more troubles to careIt's love that we share
it's love that we share.Catch a falling star and tell me you love meDo you wanna stay
my love
do you wanna stay
my love
. . .
Come and sing this happy melody
. . .
Santa Lucia by night -
romantic feelings under the starry light. . . .
No more worries
no more troubles to careIt's Iove that we share
it's love that we share.
In the morning till the night.
