Quiet Times

Dido

You ask me where I go tonight I'll go back to today last year
When me and you had to make each other happy
And there was hope with everythingIt's hard enough to feel the world as it is and hold on anything
Without these quiet times you've bought 'round hereI'm gonna have to run away, I'm sure that I belong some other place
I've seen another side of all
I've seen it keeps me wonderin' where my family isIt's hard enough to see the world as it and hold on anything
Without these quiet times comin' 'round hereAnd I miss you and I want you
But I can't have you even when you're hereI suppose I have to take you with me
Broken mind, I'd rather leave you here
To forget everything you've seen and known here as every ideaWhen you walk up in the street and you hold my hand and smile
Well, I won't be takin' it 'cause I know how it turns out
And it takes me back to these quiet times comin' 'round hereAnd I miss you and I want you
You're not comin' back and I need you
But I can't have you even when you're hereAnd I miss you and I want you
You're not comin' back and I need you
But I can't have you even when you're here
