Capital

Unjust

Waiting, time you heard, open up, where's your love...
Fleeting virus won, shadow peers, share their fears...I can't make you see the world, Just look inside your crowns above
So were you here? Were you here?
Woven in this holy life, blind kids cannot see the lines.
So were you here? Were you here?Painting skies in drift, focus up, where you're from...
Feeding the mouths you lost, hold them near, mend their tears...The Fields, brought us this downgrade
Greed, brought us this downgrade
