

# Back 4 U

## Jurassic 5

Check this out, real quick  
I don't know if everybody know us personally as individuals  
So what I want to do right know is  
Is I want to take this timeout just to introduce everybody So, let me just introduce everybody  
I need from the people up top  
From the people on the bottom  
And the people in the back on both sides to give it up when I say When the music is the soul  
(So, what I want to do right now)  
Is I just want to go back a little bit with y'all, Check this out  
(And the soul is the music) Yo, dressed in indigenous garb, sittin' abroad  
The words that I use to be awed, people applaud  
Now, watch how the brother adapt, fill in the gaps, perhaps  
I play the block until the curb collapse Now, check the method and put the message on record  
Promote the effort and change the neighborhood preference  
And keep 'em guessin' from the old to the adolescent  
It's J5 and it ain't no half steppin' The word play we display  
Can only convey the vibe when they DJ  
Colonial rep but far from the emcees  
Feel sorry for those who bystand innocently The menace in me divides men's courage in half  
I murdered my staff, demolished every nerd in my path  
The verbal giraffe, which have a overdue day job  
We do play live, ask the people who they flock, the crew J5 We ride right into the night, words that we write  
We're calm then a settle your site, come to the light  
The word play, we display, kept us movin' from Tokyo to L.A.  
Catch the feelin' as we move on Follow the groove and steadily soothe  
Got you all comin' in two, follow the crew  
No mean thing 'cause we tied like shoe strings  
When we sing you hear buzz like bee stings Thank you now, very much, thank you  
This is a, a, very historical moment for us as Jurassic 5 man, for real man  
I feel like, a, you know, we have some serious support out here You know we bring this back for you  
So you know we bring this back for you  
So you know we, know we, know we, know we, know we  
So you know we, bring this back for you Yeah, what, yeah, when we play you walk this way  
We walk in faith, I hope you feelin' great  
We came here tonight just to celebrate  
Put ya hands up high you know we're rockin' the place If you came here to hate, you came way to late  
Jurassic emcees and came to set shit straight  
Originality, check the way we originate  
Style and communicate, check the way we demonstrate Countdown three, two, one

Some rappers, a speak the real and I can see through some  
I focus my sound, I never sellin' surplus pounds  
I'm workin' to smash and drown all you circus clowns You try to dis and get your limbs crushed like ants eggs  
Some are fated where my tims touch my pants legs  
We indestructible plus we's magnificent kings  
Beat over book by overlooking insignificant things  
That bullshit that you bring Pass, pass, pass, you know we, know we, we, pass, pass, pass  
You know we bring this back for you  
So you can know we bring this back for you  
So you can know we bring this back for you  
So you can know we bring this back for you So you can know we, know we, know we, know we  
You can know we, know we, know we, know we  
Know we, know we, know we, know we, know we
