

Metal

Nine Inch Nails

We're in the building where they make us grow
And I'm frightened by the liquid engineers
Like you My Mallory heart is sure to fail
I could crawl around the floor just like I'm real
Like you The sound of metal I want to be you
I could learn to be a man
Like you Plug me in and turn me on
Oh, everything is moving I need my treatment it's tomorrow they send me
Singing, "I am an American"
Do you? Picture this if I should make the change
I'd love to pull the wires from the wall
Did you? And who are you and how can I try?
Here inside I like the metal
Don't you? All I know is no one dies
I'm still confusing love with need
