As We Choke

Throwdown

With a grip so tight
you could make it bleed
He twists, We twist humanity
And to think we did it for this
And to know we did it for thisToo plagued to be repaired
And there's nothing left but despair
What will save us now
I choke life's apathyToo crushed to be repairedHe twists as we choke
Twist as we chokeTo think we did it for this
To know we did it for this1,2,3,4 GO!
Too crushed to be repaired
