Our Own House

MisterWives

[Verse 1]
Came in like the breeze, I felt it in my knees
Never will it leave, each day it is retrieved
Seems like yesterday, your eyes crept this way
In to my soul you stared, and bolted every fear[Chorus](2x)
We built our own house, own house
With the hands over our hearts
And we swore on that day
That it will never fall apart[Post-Chorus]
Will never fall apart-art-art
Will never fall apart-art-art
With the hands over our hearts
Will never fall apart-art-art[Verse 2]
Wake up to the sun, clouds always come undone
You give the light I need, like water to the seed
Waiting in until, want to talk to be real
And prove wrong it seems, our heart can truly mean[Chorus](2x) + [Post-Chorus]
[Bridge]
Take it all, take it away
We'll still have the sun dying
And the love that is beating
Till our lungs stop breathing
Take it all, take it away
We'll still have our reaches
No need for stitches
Cause love melts the pain
Take it all, take it away (love me)
Take it all, take it away (love me)
Take it all, take it away (love me)
Take it all!
[Chorus] + [Post-Chorus]
