We're Coming Back

Cock Sparrer

We're coming back, we're coming back
We're coming back to you
We're never gonna go away again
Hold on a little longer, try a little harder
'Til we're arm in arm together to the end[Chorus]
So remember, out there somewhere
You've got a friend, and you'll never walk alone againDon't get worried, don't get scared
We're fighting to get there
Never doubt we're gonna get through
We're gonna run, we're gonna crawl, kick down every wall
It won't be long we're coming back to you[Chorus]We're coming back, we're coming back
We're coming back to you
We're never gonna go away again
Hold on a little longer, try a little harder
'Til we're arm in arm together to the end[Chorus]
