

I'll Save You All My Kisses

Dead or Alive

You might hear I'd trade my love for candy
Don't believe that stuff
It's a misunderstanding
Whatever I've got
It doesn't come cheaply
Not many have got
What it might take to keep me I'll save you all my kisses
Save you all my kisses I'm all alone
With nobody to amuse me
If I told you I'd be true
I know you'd see right through me
Because I'm on the road
They give your permission
While others just fool around
With my ignition I'll save you all my kisses
Save you all my kisses I don't mean to worry you
But I'm full of heart
And I've got an empty head
I don't mean to hurry you
But I just can't live here with an empty bed
I would be so satisfied
If you were right here
Standing by my side
There's not much I wouldn't do
If I could save all of my kisses just for you
If people say I'm bad to promise you
Ignore them
My kisses are exclusive
No one can afford them
All the thrills in my heart
Have found them with you
Nobody else can do
The things that you do I'll save you all my kisses
Save you all my kisses
