Living My Dreams

Advisory - the following lyrics contain explicit language:

Nothin could stop you no1 could break you
Nothing could block you
And no1 could take you outta your zone
So when they ask you why you sleepin with your eyes wide open
Ya tell em baby I'm livin my dreamsNow that I'm here I hear nothing but talk
Let's get this clear it's nothin but heart I fear nothin but God
Wait it gets worse it was rough it was tough I suffered my loss
Far from a sucka no lucka no odds I'm hustlin hard
No matter how you shuffle my cards or cut up my dodge
Thatd be so fuckin mirage no duckin I'm charged up
And I'm pumped I pissed on the moon and took a dump on the stars
Yea my shits outta this world how they gon fuck with my bars
My bumps and my scars my bruises my cuts refuse to get fucked
Defusin my past uses my gas fuelin me up defusion of such
Confusion is just no illusion of beautiful rust
That proves it's never losin it's touch whattt
You a fox lookin shook in Jurassic park
And I'm a box full of books in a attic smart
So tell a friend I put the "cool? " in intelligent
Biggest thing in the room I wouldn't move for an elephantNothin could stop you no1 could break you
Nothing could block you
And no1 could take you outta your zone
So when they ask you why you sleepin with your eyes wide open
Ya tell em baby I'm livin my dreams6 years ago I signed a record deal with puffy combs
I told my city pop em bottles off I'm comin home
They see me fail so I hope everybody watchin this
Jordan said a champion only good as the shots he miss
So fuck it I'm set it's nothin but net
Fuckers r pressed nothin is pressure
Bitch double them bets I double the best
I triple quadruple quintuple the rest
Discussions get hushed in my presence

And picked up when I left, right, what's up
You down when I slide up you gon move down
All my niggas ride up we gon cool down
Oh, no problem we cool now
Drop top summer hot with the roof down
Hop out with my bop n my new crown
I'm the hot topic you will not stop it
So it ain't really shit I gotta prove now
Oo wow that's gon hurt that's my new style
That's gon work that's gon merk like
1, 2, 3, 4, all of ya'll 5, 6, 7, 8,
Big shout outs to baltimore
9, 10 when you see me goin inNothin could stop you no1 could break you
Nothing could block you and no1 could take you outta your zone
So when they ask you why you sleepin with your eyes wide open
Ya tell em baby I'm livin my dreams
