

How Do You Get That Lonely

[Blaine Larsen](#)

It was just another story printed on the second page
Underneath the Tiger's football score
It said he was only eighteen, a boy about my age
They found him face down on his bedroom floor
There'll be services on Friday at the Lawrence Funeral Home
Then out on Mooresville highway, they'll lay him 'neath a stone
How do you get that lonely, how do you hurt
that bad
To make you make the call
That havin' no life at all is better than the life that you had
How do you feel so empty, you want to let it all go
How do you get that lonely and nobody knows
Did his girlfriend break up with him, did he buy or steal that gun?
Did he lose a fight with drugs or alcohol?
Did his Mom and Daddy forget to say I love you son?
Did no one see the writing on the wall?
I'm not blamin' anybody, we all do the best we can
I know hindsight's 20/20 but I still don't understand
How do you get that lonely, how do you hurt that bad
To make you make the call
That havin' no life at all is better than the life that you had
How do you feel so empty, you want to let it all go
How do you get that lonely and nobody knows
It was just another story printed on the second page
Underneath the Tiger's football score
