Machine Gun

Slowdive

See you walking and I know that she's my friend, again
Just the weight of the water drags me down, again
Guess I'll think of the water, it's my friend, oh yeah
It's just the way that the water makes me feel, againSon of Sheba, I saw him drown
Son of Yellow, I saw him drown
It's all I need yeahSee you walking and I know that she's my friend, again
Just the weight of the water drags me down, again
Guess I'll think of the water, it's my friend, oh yeah
It's just the way that the water makes me feel, againSon of Sheba, I saw him drown
Son of Yellow, I saw him drown
It's all I need yeah
