Tears In The City

Warrant

I?ve been thinking about this lately
i Feel we?re growin old
This tears on my pillow and i know im not alone
I?ve been slow searching lately
and I think I found the hole
Lies in my heart and i know im not alone
Maybe it?s this city all the glitter and the gold
can?t find our way here and we can?t make it home.
love your man and i need you to follow
We rearrange we?re leaving tomorrow.
[Chorus:]Tears in the city good night
Too less people you'll have to fight
Don?t know if we?re wrong but it?s got to feel right

There?ll be tears in the city tonight.
Bottles in the trash can and pills by the bed
life and were livin if were livin with the dead
Don?t get me wrong I've got you by my side
I know there?s a reason we?re run and we hide
im your man and I need you to follow
We rearrange we?re leaving tomorrow.
[Chorus x2:]Tears in the city good night
Too less people that you'll have to fight
Don?t know if we?re wrong but it?s got to feel right
There?ll be tears in the city tonight.
Tears in the city tonight.
Tears in the city tonight.
