

Let It Rain

Jennifer Paige

Hoo, ha ha! It's in your eyes, you wanna cry
But you're afraid to let go
Sometime the past comes rushing back
Emotions overflow You don't have to worry, you know I'll understand
I wanna help you through it, anyway I can
I'm gonna be here for you, take me by my hand
Break through these skies of gray, don't hold back Let it rain
(Let it rain)
Let your teardrops wash away the pain
(Let it rain)
By your side I promise to remain
(To remain)
My love will pour like sunshine through the rain
(Let it rain)
Let it rain
(Rain) With every touch, I'll earn your trust
You'll see my love is for real
So let me in, I'll show you how to love again
Don't have to hide how you feel I'll be here to hold you, hold you when you cry
With my tenderness push the clouds aside
We'll make tonight the night, you leave it all behind
Break through these skies of gray, don't look back Let it rain
(Let it rain)
Let your teardrops wash away the pain
(Let it rain)
By your side I promise to remain
(To remain)
My love will pour like sunshine through the rain
(Let it rain)
Let it rain
(Rain) You'll see a brighter day
(You'll see a brighter day)
Let my love lead the way
(Let my love lead the way)
To a rainbow in the sky
(To a rainbow in the sky)
Tears of joy will fill your eyes, let it rain Let it rain
Let it rain only
(Let it rain)

(Let it rain)
Wash away, gonna wash away those tears
(Tears)
Wash away those tears
(Let it rain)
(Rain)
Rain down
(Let it rain)
Oh yeah, let it rain now
(Let it rain)
