

Try Again (feat. Sidney Diamond)

Sons Of Zion

I remember that song you used to sing all night long
You said you were gonna be a superstar
Now the years have moved on
The lyrics faded and gone
Staring at an empty space
Wishing you could hit replay
Bridge:
Too busy wasting time trying to relive your life
When everybody's moving on
When you wake up you find
People left you behind
Yeah...Chorus:
I am only human
I will make mistakes but
I'm doing the best with what I've been dealt
Time is always given, but it's never promised
Someday we will all just figure it out
Until then I'll just try again
His parents always had plans when he got that education
But never thought to ask him what he wants, oh no...
As he looked in the mirror
The choices don't get no clearer
He left it all to find out who he was
oh no...(Bridge)
(Chorus)We come from a natural part of environment
Whatever thing he need, his father supplying it
Directly in front of his face, consistently tired, blood
He witnessed a lot of what family violence is
Nobody know, they just treat him like a tire rack
Personal less commitment and never tried
Some even think that his purpose in life is
To end up inside prison for a long time
Quit school, find his self in a prison
Working with cars four years, now he can benefit
Started his own company, youngin' is gettin' his
The dude that you hatin' on, he will never hate
(Chorus)Until then I'll just try again... (4x)
