Misery Loves Company

Mike Ness

I used to roam all night long
I lurked the streets late at night
I ain't never comin' home
But loneliness is part of the game
And misery loves companyI used to think that I was a king
Fancy cars, fancy clothes and diamond rings
Yeah, but happiness is a funny thing
And misery just loves companyDon't even try to understand
What goes on inside this man
As a boy I used to dream
'Cause sometimes life ain't what it seemsWe used to dance under moonlight
But then the tears began to fall
And baby that ain't right
'Cause losin' you was part of the gameAnd misery loves company
'Cause fuckin' up was part of the game
And misery loves company
