

Ride

Darren Hayes

Come on
Baby baby come on
Baby baby come on
You only know one half of me
Up until now it's all I let you see
I used to reveal selectively
But now I'm changing
So baby come on inside
Baby get on this ride
Get closer to me
Don't you know that
It's time to take control
To take what's mine
Gonna take it home
I think I'm about to fly, so here we go
Baby get on this ride with me
Baby come on sit next to me
Baby get on this ride hold on tight
Cos we've got all night
Baby get on this ride with me
I wanna feel you next to me
Baby get on this ride
Hold on tight
Buckle up right now
Baby come on
Feels like I've been locked up all my life
Held down denied the right to fight
Nobody else could do this right
I'm just arriving
Baby get on this side
Baby get on this ride
Get closer to me
Don't you know that
It's time I let you know
I got so much further that I could go
It's time to start the show
So here we go
Baby get on this ride with me
Baby come on sit next to me

Baby get on this ride hold on tight cos we've got all

Night

Baby get on this ride with me

I wanna feel you next to me

Baby get on this ride

Hold on tight

Buckle up right now

Baby come on

If you want what I want we won't have a problem

You see in the past I just compromised

I've been taking a backseat but that's not me no longer

I don't feel shy, don't want to hide, I'm ready to fly

Now baby come on

Come on

All you my people, my people

Tell me now

Baby come on

Baby get on this ride with me

Baby come on sit next to me

Baby get on this ride hold on tight cos we've got all night

Baby get on this ride with me

I wanna feel you next to me

Baby get on this ride

Hold on tight

Buckle up right now

Baby

Get on this ride with me

I wanna feel you next to me

Baby get on this ride hold on tight cos we've got all night

Baby get on this ride with me

I wanna feel you close to me

Baby get on this ride

Hold on tight

Oh yeah

Come on

Baby get on this ride hold on tight

Tell me

My people, my people

All you

My people my people

(repeat)

Tell me
