

# Graves

## CHVRCHES

Do you really believe that you can never be sure?  
They're leaving bodies in stairwells  
Washing up on the shore  
Do you really expect us to care what you're waiting for?  
When you're high in your castle  
Keeping an eye on the door  
The door, the door If I only see what I can see  
I know it isn't there  
And if only need what I can keep  
I know it isn't fair  
Oh, baby  
You can look away  
While they're dancing on our graves  
But I will stop at nothing  
Oh, I will stop at nothing  
And you can look away  
While they're dancing on our graves  
But I will stop at nothing  
No, I will stop at nothing now Do you really believe that you are one of a kind?  
If you don't have a heart I can offer you mine  
Do you really expect that you will always be fine?  
When you're high on your throne and  
Never toeing the line, the line, the line If I only see what I can see  
I know it isn't there  
And if only need what I can keep  
I know it isn't fair  
Oh, baby  
You can look away  
While they're dancing on our graves  
But I will stop at nothing  
Oh, I will stop at nothing  
And you can look away  
While they're dancing on our graves  
But I will stop at nothing  
No, I will stop at nothing now Lookin' away, you're lookin' away  
Lookin' away, you're lookin' away  
Lookin' away, you're lookin' away  
From all that we've done  
Lookin' away, you're lookin' away

Lookin' away, you're lookin' away  
Lookin' away, you're lookin' away  
From all that we've done Oh, baby  
    You can look away  
While they're dancing on our graves  
    But I will stop at nothing  
    Oh, I will stop at nothing  
    And you can look away  
While they're dancing on our graves  
    But I will stop at nothing  
No, I will stop at nothing now Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
        From all that we've done  
    Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
From all that we've done Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
    Lookin' away, you're lookin' away  
        From all that we've done
