Graceland

Freedom Call

In a time of loneliness years gone by
Time of sadness, tried to survive
We saw a land so glorious far beyond the sun
Let us ride awayWhen we're touching the sky tonight
(Dreams have fallen, voices calling)
When together we will spread our wings and fly
(Darkness falling, heroes calling)
Forever for the love, forever for the flame inside
(Hope has fallen, winds are calling)Once upon a time the world was in distress
But now we live in peace united till the endForever in a land of grace and glory
My soul is free of pain
And the children tell us stories
That harmony remainsForever in a land of grace and glory
My heart will live again
And the children tell us stories
That happiness remainsWatching the sky, the light
(Strangers walking, creatures talking)
And return to the sun, escape from the night
(Darkness falling, shadows crawling)
Oh, you pray to your God and pray for eternal life
(Times are turning, planets burning)Once upon a time the world was in distress
But now we live in peace united till the endForever in a land of grace and glory
My soul is free of pain
And the children tell us stories
That harmony remainsForever in a land of grace and glory
My heart will live again
And the children tell us stories
That happiness remainsForever in a land of grace and glory
My soul is free of pain
And the children tell us stories
That harmony remainsForever in a land of grace and glory
My heart will live again
And the children tell us stories
That happiness remainsForever in a land of grace and glory
My soul is free of pain
And the children tell us stories
That harmony remainsForever in a land of grace and glory
And the children tell us stories
Forever in a land of grace and glory

And the children tell us stories
