14th Floor

Television Personalities

I'm looking down on London
But there's little I can see
Cos I'm living so high up
And it looks so small to me
And I'm feeling so frustrated
Cos the lifts are out once more
And when I get home from work tonight
I gotta climb 14 floors, I tell you mate...14th floor
Oh no, my face don't fit
14th floor Just a number on the council list
14th floor
Oh no, there's nothing to do
14th floor
It's got a roof, it hasn't got a viewI've lived here for seven years now
But I don't know anyone
I think the bloke next door is a Jamaican
But he could be an Irishman
And life's no fun in a tower block
When you're locked behind your door
I think I must have had enough
Of living on the 14th floor, I tell you mate...14th floor
Oh no my face don't fit
14th floor
No no another number on the council list
14th floor
