Extacy

Hypernova

Momentary pleasures are no cure
For the fundamental aches within
So take this pill and close your eyes
And things will never ever be the same againYou put me in the spotlight
You put me in the spotlight
Now everything is all right
Now everything is all right
You put me in the spotlight
You put me in the spotlight
Now everything is all right
With meRegrets
You know that I can live without them
Live without them
Fearless
Dance like the wind
Dance like the windLaser beams are burning through my silhouette
Leaving just a memory
You got a glimpse of the truth
No you're swimming in a pool of ecstasyYou put me in the spotlight
You put me in the spotlight
Now everything is all right
Now everything is all right
You put me in the spotlight
You put me in the spotlight
Now everything is all right
With meRegrets
You know that I can't live without them
Live without them
Fearless
Dance like the wind
