

The Silent Place

Cinema Bizarre

This is the silent place
Where everybody looks the same
This is the silent place
Where people speak but cannot hear
This is the silent place
Where millions die and no one cares
This is the silent place
This is the world that we have build
This is the silent place
A place to face the agony
This is the silent place
A place for you but not for me!
All we need is fantasy
All to be we want to be
All you need is fantasy
All to be you want to be
All we need is fantasy
All to be we want to be
All you need is fantasy
All to be you want to be

This is the silent place
Where everybody speaks the same
This is the silent place
Where people stare but cannot see
All we need is fantasy
All to be we want to be
All you need is fantasy
All to be you want to be
All we need is fantasy
All to be we want to be
All you need is fantasy
All we need is fantasy
All we need is fantasy
All to be we want to be
All you need is fantasy
All to be you want to be
All we need is fantasy
All to be we want to be
