I'm All About You

Downhere

There's somethin' I've gotta say
You're always with me even though you're far away
Talkin' to you on my cell
Just the sound of your voice makes my heart melt
Oh girl, well it's trueI'm all about you, I'm all about us
No baby you never have to question my love
And every night there's a new crowd
But it's always you I'm singin' about
There is only one these words are goin' out to
Oh girl, I'm all about youI know you worry sometimes
(Sometimes you worry)
Some other girl will make me forget you're mine
There's not a doubt in this world
That anyone could take the place of my no one girl it's trueI'm all about you, I'm all about us
No baby you never have to question my love
And every night there's a new crowd
But it's always you I'm singin' about
There is only one these words are goin' out to
Oh girl. I'm all about youWhen I close my eyes I can see you
It's like you're right here
And these feelin's only gettin' stronger
You're with me everywhereI'm all about you, I'm all about us
No baby you never have to question my love
And every night there's a new crowd
But it's always you I'm singin' about
There is only one these words are goin' out to
Oh girl, I'm all about youI'm all about you, I'm all about you
I'm all about you, I'm all about you
I'm all about you, I'm all about you
I'm all about you
