

# The Joke's On Us

Biffy Clyro

What's that sound, it's the sound of the truth in us,  
Reaching high's that we won't in the future.  
Can't say I didn't warn yah,  
It makes me want to scream,  
Let's create our own fire,  
Blame boys in the shape of a girl.  
Take, whatever you want from us,  
What are you starring at,  
Is it our souls?  
We, embrace all the violence,  
With the sparkles of happiness.  
Is it us?  
Are we alive, because God, saved us or  
Is life just a juggernaut?  
Are we alive, because God, tricked us and,  
This is all just a joke on us.  
Stamp my heart, it won't stop beating on  
Cage my mind, it won't stop tripping in

Can't say I didn't warn yah,  
It makes me want to cream,  
Let's move to California,  
Find ourselves a whole new world.  
We, embrace all the violence,  
With a small dose of happiness.  
Is it us?  
Are we alive, because God, saved us or  
Is life just a juggernaut  
Are we alive, because God, tricked us and,  
This is all just a joke on us.  
I want to take it back, x2  
I want to live in the dark, x2  
I'll end up with somebody else x4  
Are we alive, because God, saved us or  
Is life just a juggernaut  
Are we alive, because God, tricked us and,  
This is all just a joke on us.
