

# She's a Piece of Work

John Wesley Harding

Some things look hard  
And then they're not  
Like getting on a tightrope  
And falling offBut there's never been anything  
Harder than loving her  
She's so demanding, so intense  
Her expectation of the ordinary is so immenseBetter take her at her word  
It would be easier to give up than live up to her  
Such ludicrous perfection  
Isn't found on earthAnd for anyone who said  
That love was easy  
I said, for anyone who said  
That love was easyShe's a piece of work  
She's a piece of work  
She's a piece of workShe's up and down  
She's round the wheel  
She's governed absolutely  
By the way she feelsThat's a lethal combination  
In a small house when it rainsWe sit around, then it pours  
Me, I'm so addicted  
To the great indoors  
And she wants to shine againShe's the only person  
I have ever met  
Who makes me feel  
I haven't tried hard yetAnd for anyone who said  
That love was easy  
I said, for anyone who said  
That love was easyShe's a piece of work  
She's a piece of work  
She's a piece of workAnd for anyone who said  
That love was easy  
I said, for anyone who said  
That love was easyShe's a piece of work  
She's a piece of work  
She's a piece of work, yeah
