We Are Energy

Jill Andrews

Light, Light me up
Can you feel the ground beneath us?
There's a change from where I stand
And a fire that is raging
Shake, gotta shake it up
Can you take the push and pull-up?
All the things you never thought youâ€™d do
But it turns out the stars align for you
We are Energy, we are Lightning
Every time we touch itâ€™s combining
With Potential - Everyone can see
We are drawinâ€™ it here magnetically
I will wake, I will wake you up
Would you know if you were dreaming?
In your head, electricity is the source
of what youâ€™re feeling
Turn it on and you turn it up
And if I can hear a ringing
All the voices in the air above
And it turns out it was always you whoâ€™s singing...
We are Energy, we are Lightning
Every time we touch itâ€™s combining
With Potential - Everyone can see
We are drawinâ€™ it here magnetically...
