

Change

Asian Dub Foundation

Look through the square or round window
Now a change a gonna come
Whether you come by bus or underground
Still a change a gonna come
If you're north or if you're south
You know a change a gonna come
Whether by fax or word of mouth
Still a change a gonna come. Meters peaking
Truth is leaking out into the sticks
Too late now no turning back now
'cos the switches have been flicked
Goalposts moving
Signposts pointing you the wrong way
They're screwing up
You're queuing up
Come back another day. If you're old or if you're young
You know a change a gonna come
No matter where you come from
What colour - black, white or brown
Government man plan
Mash up in a Britain
Criminal justice bill me bawl
Where them get it from? Them can't understand
Just want to build up tension
But just watch the future
'cos a change a gonna come
Adf is here to show you how it should be done
And we know that this style is identical to none!
Yeah! Bureaucrat, democrat, fatcat
Too long they've had their way
A breeze of sleaze coming to blow them away
Satellites crashing down on India
We say no way
Adf broadcasting
We no ramp we no play.
We get maddddd..... What them a say
What them a chat 'bout
This is reality man
You can't run adf out. What them a do what them a talk 'bout

All of the politician run up on your mouth
Man you give me joke.....
