

# The End Is Eternal

## Nachtmystium

I came that night  
To purge life from me  
I plunged the devils claw  
Injected fear  
You shivered that night  
Something was crying  
Then in the daylight  
We didn't speak  
I hold the answers  
Now to detach  
Now to sever  
The unborn from you  
Hunted down and taken out  
All life's waste  
Hidden down in the dirt  
In small graves  
Residues of our old faith  
Gone to die  
Left with pathetic dust  
And your cries  
Bury your sadness  
Unchain your grief  
The needles are in  
The end is eternal  
Some blood in the first months  
Then just ghosts
