Easy

The Dirty Heads

Advisory - the following lyrics contain explicit language:

It's easy
I got time to get high, I got time to get by
It's easy
We got time for mistakes, we got time to retryIt's easy
So live fast and die young and don't wait till you're done
It's easy
And the world keeps spinning long after you're goneWell, it's the only life I know and boy how we have grown
Well, life will make us change in our own ways
And when we're dead and gone, the world keeps moving on
So I live my life like it's my final dayAnd, no, I ain't got much to lose, and no there ain't much left to gain
So I'm satisfied sometimes just staying sayin'
Well, I've often lost my mind and I've gone crazy sometimes
But I know some how I'm gonna find my wayIt's easy
I got time to get high, I got time to get by
It's easy
We got time for mistakes we got time to retryIt's easy
So live fast and die young and don't wait till you're done
It's easy
'Cause the world keeps spinning long after you're goneWell, I'm stuck in the middle of a gun fight
I'm stuck in the middle of a showdown
I'm standing in the dirt
And watching tumble weeds pass byI'm stuck in the middle of a high noon
I'm stuck in the middle of a typhoon
I got more fucking rhymes than the stars up in the sky
It's the good it's the bad it's the ugly then there's meSo I guess I'm a little bit of all three it's the heater
Lyrical bandolero out your speaker always looking for dinero
So what you really thinking about hmm something
I'll tell you what you're thinking about hmm nothingIt's easy
I got time to get high I got time to get by
It's easy
I got time for mistakes I got time to retryIt's easy
So live fast and die young and don't wait till you're done

It's easy
And the world keeps spinning long after you're goneIf I want to smoke me sinsemilla
Don't tell me that it's wrong and it's gonna kill you
It calms me down and it helps relieve me
You got no proof so I don't believe youSo if I want to smoke me sinsemilla
Don't tell me that it's wrong and it's gonna kill you
It calms me down and helps relieve my soulIt's easy
I got time to get high I got time to get by
It's easy
I got time for mistakes I got time to retryIt's easy
So live fast and die young and don't wait till you're done
It's easy
And the world keeps spinning long after you're goneI got time to get high I got time to get by
It's easy
I got time for mistakes I got time to retryIt's easy
So live fast and die young and don't wait till you're done
It's easy
And the world keeps spinning long after you're gone
