

Come Do Nothing

Avery*Sunshine

Clearing out my mind
While I'm packing up your stuff
It's gon take some time
'cause things got so messed up I'm so glad you'll be gone
Gonna try this on my own But the truth is I can't sleep at night
For wishing you were
I wish you were here with me
Doin' nothin' here with me I wanna hold you tight
Baby won't you come on over here with me
Come do nothin' here with me
Do you know how I feel?
I hear you found a girl
(He found a girl)
I saw her pic online
(Yes i looked her up on Facebook)
Well I've got somebody too
And we talk all the time
(Go ahead do your own thing)
'cause honey you know
I'm gon' to mine But I can't sleep at night
For wishing you were
I wish you were here with me
Doin' nothin' here with me I wanna hold (wanna hold) you tight
(Baby won't you)
Come on over here with me
Come do nothin' here with me
I can't sleep at night
For wishing you were
I wish you were here with me
Doin' nothin' here with me I wanna hold (wanna hold) you tight
(Baby won't you)
Come on over here with me
Come do nothin' here with me Come on over here with me
Come do nothin' here with me
Come on over here with me
Come and do nothin'
Come on over here with me
Come do nothin' here with me
Come on over here with me

Come do nothin' here with me

Come on over here with me

Come and do nothin'
