Far Cry

Jack Garratt

I'm built to break
I give to take
Mind, body and soul
I feel to burn
I heal to hurt
Human after all

But I can feel I'm far from grace
Thirsty for your warm embrace
Under my arms
But think of all the infinite ways
You can think of something so sad
But fell dumb

Give me something, I can feed with love
Give me reason to follow you down
I really want to, I really love to

Give up, lay down
Sink deep in the ground
Become the fall
But I run and hide
Cower from the light
Be still my soul

But I can feel I'm far from grace
Thirsty for your warm embrace
Under my arms
But think of all the infinite ways
You can make me feel okay
But felt numb

Give me something, I can feed with love
Give me reason to follow you down
I really want to, I really love to
Give you hope when I know nothing, I
I'll be taking you home tonight
I really want to, I really love to

Tell Someone

I will be fine
Before the far cry
Calls into the night
Help me to love
Hard as I might
And get by
And get by
Tell me someone
I will be fine
Before the far cry
Calls into the night
Help me to love
Hard as I might
And get by
And get by
(And get by)
(And get by)
(And get by)
(And get by)
(Get by)
(Get by)
