

# Don't Mess With America

Cledus T. Judd

They never should have messed with New York City  
They don't want none of old Uncle Sam  
We stare right in the face of terror  
And you know Lady Liberty still stands With F15's and our Special Forces  
God bless everyone we sent  
To defend freedom and our nation  
And thank goodness Bush is our President Don't mess with America  
Or we'll beat you red, white, and blue  
Don't mess with America  
That's the last thing that you want to do  
You already had your chance  
Now we're going to kick your  
Don't mess with America Bin Laden's going down like a White House intern  
Kind of sounded like Ronnie Dunn, didn't I?  
And while we're at it let's get that nut Hussein  
When the threat of evil is finally silenced  
You'll hear how loud freedom can ring They started something we're gonna finish  
(Those people who knocked these buildings down  
(Will hear all of us soon)  
And we won't rest until that day  
(We will not tire, we will not falter, and we will not fail)  
Everywhere you look you see them flags flying  
(U.S.A., U.S.A., U.S.A., God bless America)  
And what that stands for, they can't take that away  
(My fellow Americans, let's roll) Don't mess with America  
Or we'll beat you red, white, and blue  
Don't mess with America  
Bin Laden, I'd hate to be you  
You don't stand a chance  
We're gonna open up a can of whoops  
Don't mess with America I said, don't with America  
You're over there and preaching about a holy war  
Don't with America  
You're gonna be full of holes before one of them Navy Seals finds ya  
Don't with America  
And by the way get a beard trim U.S.A.  
U.S.A.  
U.S.A.
