Watching Over Me

John Miles

I hope someone's watching, watching over me
I hope someone's watching, watching over meAll I see is my reflection
I'm running like a stranger in the dark
Come closer, much closer
I'll always listen, have you something to say
My life chasing, lose it, waste it
You keep me guessing every step of the wayI hope someone's watching, watching over me
I hope someone's watching, watching over meTry to find the easy answer, it's nowhere
So I pay for my mistake, I'm trying, bad timing
I almost had it but it slipped away
No good for me, same old story
You keep me guessing every step of the wayI hope someone's watching, watching over me
I hope someone's watching, watching over meI've got no reason to pretend, oh no
But if it's up to me
I know we'll find the perfect endingI hope someone's watching, watching over me
I hope someone's watching, watching over meI hope someone's watching, watching over me
I hope someone's watching, watching over meI hope someone's watching, watching over me
I hope someone's watching, watching over me
