

Any Way You Want It

Michael Learns to Rock

Its a long and lonely night
early in the morning
I can see a million lights
And many dreams are calling
Beauty as a flower
Slipping trough the walls
Am I about to lose it allChorus:
Any way you want it
Anything you need
Baby youre the master
that I want to please
Love is getting harder
with a nice tattoo
Yes I came for youI am walking on my own
as the sun is shining
But a message on my phone
Makes my thoughts colliding
Clever conversations
get a little numb
Makes me feel that we belong to noneChorus:
Any way you want it
Anything you need
Baby youre the master
that I want to please
Love is getting harder
with a nice tattoo
I had it made for you
