The Calling

Stryper

Inside of me there is a lonely place
Sometimes I just don't know it's there
But when I'm all alone
That's when I have to faceThe part of me that needs someone
To be by my side that's when I call onYou, you make my life complete
You give me all I need
You help me through and through
I'm calling on youI can't explain just what you do to me
My love grows stronger everyday
You give me love, you give me company
And when I have to face the rain
You bring sunshine into my lifeYou, you make my life complete
You give me all I need
You help me through and through
I'm calling on youYou, you make my life complete
You give me all I need
You help me through and through
I'm calling on you
