

In the Crowds

Iron Butterfly

I look for the sun in the dire need of someone, somewhere
I look for the sun in the dire need of someone, somewhere
Words lost in the past of memories that will never lastMy mind wanders the crowds in a search
In the search of the one that I feel is my life
In the crowdsFor me this is the end
For me this is the end
For me this is the endFor me this is the end
For me this is the end
For me this is the end
For me this is the end
