

# A Car That Sped

Gene

You have to do it on your own, I can't aid you any more  
And you must learn to breathe alone and all this is yours Your shoulder's strong, so come lengthen your stride  
When you're alone, oh there is light outside But then I, I don't recall the time we spent  
It's hidden in a car that sped to its death and to its rest You have to do it on your own, I can't help you any more  
And you must learn to live alone and all this is yours And when you dream, I'll be guiding your thoughts  
So, go find you world and take what's yours But then I, I don't recall the time we spent  
It's hidden in a car that sped to its death and to its rest But then I, I don't recall the time we spent  
It's hidden in a car that sped to its death and to its rest So, give up the thoughts that bring you dread and hide  
them  
In the car that sped me to my death and to my rest
