

Teresa

Joe Dolan

I think I've seen that look before
somewhere somehow I can't be sure

Teresa.

And though I see it everywhere
I close my eyes it's always there
Teresa. From that expression you display
I think there's something you must say

Teresa.

So say it now it won't take long it's better over better done.
Don't leave me hanging around If you're just about to tell me Teresa.

I don't care anymore.

I think I'll find Somebody else just like I did before. Don't look that way you're always saying
it's not a joke a silly game

Teresa.

So you don't care to look at me turn away but I can see
Teresa. From that expression you display
I think there's something you must say

Teresa.

So say it now it won't take long it's better over better done.
Don't leave me hanging around If you're just about to tell me Teresa.

I don't care anymore.

I think I'll find Somebody else just like I did before.
