

# Down And Down

## The Georgia Satellites

Baby started talking crazy  
Crazy like from a dream  
I'm pointing a finger right at you  
And I said baby What in the hell is that supposed to mean

I said honey do not come any closer  
I do not like it when you play this game  
She looked right at me smiled and said oh daddy  
I'm a moth, your the flame

And I'm gone  
Down and down  
Well I'm so scared  
Down and down  
And I'm shakin' and nervous  
Down and down  
Well it feels like a moth  
Who's feet have touched the ground  
And I'm going down

That look in your eye got me nervous  
Nervous as I can be  
Cause when you look that look  
Smile that smile  
You scare the hell right out of me  
oh baby started moaning and crying  
from her lips come a broken sound  
I said lookie here lackie  
Lookie here baby  
Won't you lookie here at what I've found

And I'm gone  
Down and down  
Well I'm so scared  
Down and down  
And I'm shakin' and nervous  
Down and down  
it feels like a month  
since my feet have touched the ground

And I'm going down

Take a little faith baby  
Won't you take it on the roll  
Take it any way you want to  
Honey please put down that gun

A lightning strike on my shoulder  
A thunder crack in my ear  
Baby is looking right at me  
She's looking anything in this world but sincere

I know I know it's just her mockery  
The whole thing is so extreme  
Baby is so obviously lost and found  
Me, I'm left feeling dirty,

Feeling  
Down and down  
Well I'm so scared  
Down and down  
And I'm shakin' and nervous  
Down and down  
Shake it Baby  
Down and down  
Come on shake it shake it baby  
Down and down  
Come one shake it shake it shake it baby  
Down and down  
Come one shake it shake it shake it baby  
Down and down  
Come one shake it shake it shake it baby  
Down and down
