Lonely For The Last Time

Seven Places

Driving on the road to home, a few cars back
Maybe three in front, I don't know
All I know is we are going way too slowThe guy in front takes a left
The others follow, I am left alone
Maybe this will be the day that I'm going homeAnd I feel lonely for the last time
And I feel lonely for the last time
And I feel lonely for the last timeWalking on the road to home
I take three steps and I fall backward five more
I want to stop building up these walls between usThe walls of pride, the walls of pain
Break through these and make me whole again
I cannot wait to be with You, Lord JesusWhen I feel lonely for the last time
When I feel lonely for the last time
When I feel lonely for the last time
I'll be gone with YouSee the walls come down
See the walls come crashing down around us
Now we, now we are together
See the walls come downSee the walls come crashing down around us
Now we, now we are together, now we are together
Now we are together, now we are togetherAnd I feel lonely for the last time
And I feel lonely for the last time
And I feel lonely for the last timeLonely for the last time
Lonely for the last time
