Wicked Ways

Randy Rogers Band

Advisory - the following lyrics contain explicit language:

Long ago I was not weary
Once I thought that I could see the light
But now Im shut out in the darkness
Wont you help me make it through this nightAnd I know that youve seen trouble
I know that you have been blue
But Id give my last dollar
To see you walk a mile in my shoesWicked ways have taken me, broken me apart
Rotten seed that I have sewn has overgrown my heart
But I think that you could save me if you care to spend the time
Just hope you leave your wicked ways behind with minePut down my glass to remember
Raise it up when I want to forget
Just when I think Ive hit the bottom
I find out that I have nt started yetWicked ways have taken me, broken me apart
Rotten seed that I have sewn has overgrown my heart
But I think that you could save me if you care to spend the time
Just hope you leave your wicked ways behind with mineSo stop dont point that finger
Turn around and take a look inside
And if you find you are without folly
Walk along and play this song of mineWicked ways have taken me, broken me apart
Rotten seed that I have sewn has overgrown my heart
But I think that you could save me if you care to spend the timeJust hope you leave your wicked ways behind with mine
Just hope you leave your wicker ways behind with mine
