Northern Light

Basshunter

When I'm gone
Like the northern light
I'll shine down on youI will keep my magic sparkle
Brighter and higher
For youI can see sadness in your eyes
Remember our love will never die
To watch your future from afar
Will surely leave me scarredBut I have to face my demons
I have to realise
That I cannot be with you anymore
But it's alrightYeah it's alright
Yeah it's alright
You just gotta be strong'Cause when I'm gone
Like the northern light
I'll shine down on youI will keep my magic sparkle
Brighter and higher
For youWhen I'm gone
Like the northern light
I'll shine down on youI will keep my magic sparkle
Brighter and higher
For you(Instrumental 30 seconds)I know it might seem unfair
But tomorrow's not ours to share
But let me guide you when you're lost
I'm so much more than shadow than dustBut I have to face my demons
I have to realise
That I cannot be with you anymore
But it's alrightYeah it's alright
Yeah it's alright
You just gotta be strongOhh ohh ohh (When I'm gone)
Ohh ohh ohhWhen I'm gone
Like the northern light
I'll shine down on youI will keep my magic sparkle
Brighter and higher
For you
