Like It Or Leave It

Chikinki

You say you don't know me
You say you don't owe me
You say that you won't be happy waiting
You think that you're worth it
You think you deserve it
You want it all right now, your way
Together we're one
(That is my finish line)
Together we're one
(Why don't you realize?)
Together we're one
(I know that every thing's gonna be fine, together)
Together we're one, one in a million
Don't be afraid, don't say you've got plenty on the way
Don't you worry, it's gonna be brilliant
Like it or leave it, I can't help but feel like
I'm one, one in a million
I'm worth all the crap that I'm putting you through
I'll be blunt, the honest truth is
Like it or love it or leave it
You decide, you decide
Don't waste my time
Sit back and unwind now
It's gonna be fine now
You can't justify your impatience
Together we're one
(That is my finish line)
Together we're one
(Why don't you realize?)
Together we're one
(I know that every thing's gonna be fine, together)
Together we're one, one in a million
Don't be afraid, don't say you've got plenty on the way
Don't you worry, it's gonna be brilliant
Like it or leave it I can't help but feel like
I'm one, one in a million
I'm worth all the crap that I'm putting you through
I'll be blunt, the honest truth is
Like it or love it or leave it

What was that line in that one movie?
When he looked at her like it would last forever
Said to her face that he'd do whatever it took to be her boy
But above all what he wanted most, credits roll, curtains close
Then you whispered in my ear
Together we're one in a million
(Don't be afraid)
Together we're one in a million
(Don't be afraid)
Together we're one, one in a million
Don't be afraid, don't say you've got plenty on the way
Don't you worry, it's gonna be brilliant
Like it or leave it, I can't help but feel like
I'm one, one in a million
I'm worth all the crap that I'm putting you through
I'll be blunt, the honest truth is
Like it or love it or leave it
You decide, you decide
Don't waste my time
You decide, you decide
Leave it
