

Hell Is High

Black Label Society

Hell is high so am I
A junkie's rush flying across the sky
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie rushLife is good, life is fine
Pull the trigger one more timeHell is high and you all know
When the petal hits the floor it's time to roll
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie's rushLife is good, life is fine
Pull the trigger one more timeHell is high, so are you
Take a look in the mirror, yeah, you know it's true
A million mile an hour, no, it ain't enough
Machine gun mind and a junkie's rushLife is good, yeah, life is fine
Pull the trigger one more time
