

You're My Best Friend, My Love

Jackson 5

When I need more than love
You are the one that I run to
When just words aren't enough
You know exactly what to do And every time I need someone
To turn my upside down back up
You're always there
I'm so glad you care You're my best friend, my love, my love
You're my best friend, my love
My love, you are my best friend You're my warm when it's cold
You are my sunshine when it rains
And if the rain turns to snow
We'll still be on that friendship train 'Cause if our love affair should end
(If our love affair should end)
I know I'll never find a friend
As great as you, girl, I'm glad it's true I know you're my best friend, my love, my love
You're my best friend, my love
My love, you are my best friend Ooh, you're my best friend
Girl, there'll be no other
You're my friend and lover You're my best friend
Don't you know I love ya
You're my friend, my lover Ooh, ooh, girl, there will always be
Someone to love ya
Someone who can love ya You're my best friend
Yes, you are, yes you're my friend and lover
Girl, there'll be no other You're my best friend
I'll be yours forever
You and me together
