

# I'm Not (happy for You)

## One Less Reason

And baby, maybe you've been saved  
And you just don't know it  
Maybe, maybe you've been hurt  
And you're scared to show it

But sometimes, does your pain become too much for you to bear?  
And sometimes, do you run away?

And I said maybe, maybe you won't stay  
And it doesn't matter  
Cause lately, lately I have changed  
And I feel much better

But sometimes, does your pain become too much for you to bear?  
And sometimes, do you run away?

You're gonna take this broken heart that he gave you  
And follow the light of the stars you love  
When every day is all the same  
You made me wonder why

Did you try, if you knew better?  
I wished on a star, and it landed on you  
I lie, because I'm not better  
And I'm not happy for you, I'm not happy for you

And I said baby, is there something you need to say?  
Cause your heart says nothing  
And maybe, maybe I'm to blame  
And this has all been over

But sometimes, does your pain become too much for you to bear?  
And sometimes, do you run away?

You're gonna take this broken heart that he gave you  
And follow the light of the stars you love  
When every day is all the same  
You made me wonder why

Did you try, if you knew better?

I wished on a star, and it landed on you  
I lie, because I'm not better  
And I'm not happy for you, I'm not happy for you  
And I'm not happy for you, I'm not happy for you  
Yeah, I'm not happy for you, I'm not happy for you

And I said maybe, something you need to say?  
Cause your heart says nothing  
And baby, but I don't think that we'll change

Why did we try if you knew better?  
I wished on a star, and it landed on you  
I lie, because I'm not better  
And I'm not happy for you, I'm not happy for you

Did you try, if you knew better?  
I wished on a star, and it landed on you  
I lie, because I'm not better  
And I'm not happy for you, I'm not happy for you  
And I'm not happy for you, I'm not happy for you  
Yeah, I'm not happy for you, I'm not
