

# Do You Mind?

## Just a Band

Do you mind? X 50I need to watch the movie but your head is blocking me  
I need to read my paper but your head is blocking me  
I came to have fresh air but your breath is killing me  
I want to have some space but you're taking all that's left  
I need to read this book but you're talking too muchCan I have some space please?  
Can I have some space please?  
Can I have some space please?  
Can I have some space please?Do you mind? X12
