Love Thing

Tina Turner

Saw you there, so confused
I knew that I could make my move now
Treading softly, I walked over you
We talked about this thing called loveSaw your eyes open wide
And I knew your heart was in it
Well let me take you there
Let me take you there tonightGet on board, get on my love thing
Gonna drive you wild
I wanna show you, I wanna hear you sing
Baby we got a love thing, right nowClose your eyes, follow me
I'll show you a world, you've never been to
Take a ride in my love machine
And I won't do anything you can't get intoWhat I've got is what you need
And you won't do a thing about it
Well let me take you there
Let me take you there tonightGet on board, get on my love thing
Gonna drive you wild
I wanna show you, I wanna hear you sing
Baby we got a love thing, right nowI never want you to go
I always want you to stay
So come on baby
Come on now, come on now
Come on now, come on nowSaw your eyes open wide
And I knew your heart was in it
Oh let me take you there
Let me take you there tonightGet on board, get on my love thing
Gonna drive you wild
I wanna show you, I wanna hear you sing
Baby we got a love thing, right nowGet on board, get on my love thing
Gonna drive you wild
I wanna show you, I wanna hear you sing
Baby we got a love thing, right nowLove thing
To show you
Hear you sing
We got a love thing, right nowLove thing
I wanna show you
I wanna hear you sing
We got a love thing, right now
