

Turn It Up

Ted Nugent

(Instrumental Interlude)

Hey good lookin'

What you got cookin'

I need it on a Saturday night

Don't know if I fall

In a rock n' roll hall

That sound is just what I like

So turn it up, turn it up, make it louder than hell

Turn it up, turn it up, make it ring like a bell

I know what I like

I got to turn it up tonight

Turn it up, turn it up, turn it up, louder, louder

Oh my god lock and load

The stage is like a wall of sound

what I need

To help blow the walls down

Turn it up, turn it up, make it louder than hell

Turn it up, turn it up, make it ring like a bell

I know what I like

I got to turn it up tonight

Turn it up, turn it up, turn it up, louder, louder, louder, yeah

(Instrumental Interlude)

Oh my god lock and load

The stage is like a wall of sound

what I need

To help blow the walls down

Turn it up turn it up make it louder than hell

turn it up turn it up make it ring like a bell

I know what I like

I got to turn it up tonight

Turn it up, turn it up, turn it up, louder, louder, louder, yeah

(Instrumental Interlude)

So, turn it up, turn it up, make it louder than hell

Turn it up, turn it up, make it ring like a bell

I know what I like

I got to turn it up tonight

Turn it up, turn it up, turn it up, louder, louder, louder, yeah

(Instrumental Interlude)

Yeah, yeah
Yeah, yeah
Yeah, yeah
Yeah.....
